

Annex - 2

Project 1

Program Name		JPF Afghanistan Emergency Food Aid Modality Program			
Project Name		Provision of conditional and unconditional food assistance to drought-affected IDPs, returnees and vulnerable local people in Dara-e-Noor District in Nangarhar Province			
Phase 1	Start	27 th Jan. 2023	End	26 th Aug. 2023	

Log-Frame

Project Purpose	Enable local residents to gradually improve the situation of food crisis and develop their ability to establish irrigation channels for themselves by providing food assistance to 800 vulnerable households affected by drought.				
Outcomes and indicators	Outcomes	Indicators		Means of Verification	
	1. The food crisis situation of households receiving food distribution in the Dara-e-Nur district will be improved. 2. The residents of targeted households in the Dara-e-Nur district will gain the ability to develop irrigation waterways."	1. Percentage of monitored households (260 out of 800 targeted households) in the Dara-e-Nur district who reported an improvement in the quantity and quality of meals due to received food assistance: 85% (Project Monitoring). 2. Percentage of beneficiaries (196 out of 400 targeted households) from the Dara-e-Nur district's Food for Work program who answered affirmatively that they can independently develop irrigation facilities: 85% (Post-Project Monitoring)."		1. Interview, questionnaires (Project Monitoring). 2. Interview, questionnaires (Project Monitoring).	
Outputs	Output	Indicator:		Activities	
	1-1. 800 households affected by drought receive a two-month supply of food. 1-2. Irrigation waterways are developed	1-1-1. Number of households receiving a one-time distribution of 2 months' worth of food (households with pregnant/nursing mothers, females, children, persons with disabilities, or chronic illnesses as household heads, and affected by drought): 400 households (Recipient List). 1-1-2. Number of households receiving a one-time distribution of 2 months' worth of food (households with able-bodied working members and affected by drought): 400 households (Recipient List). 1-2. Number of developed irrigation waterways: 30 (Post-Project Monitoring Report)."		1-1. Coordination with stakeholders. 1-2. Establishment of the Beneficiary Selection Committee (BSC). 1-3. Capacity strengthening of the BSC. 1-4. Selection of beneficiaries. 1-5. Selection of supply providers. 1-6. Development of irrigation waterways. 1-7. Distribution of food and supplies. 1-8. Project monitoring, evaluation, and post-distribution monitoring.	
Number of Beneficiaries	Direct beneficiaries: 800 households (approximately 5,600 people, assuming an average of 7 people per household), breakdown: Direct distribution to 400 households, Food for Work for 400 households. Indirect beneficiaries: Approximately 1,000 households (approximately 7,000 people)."				

Project 2

Program Name		JPF Afghanistan Humanitarian Crisis Response Support Program		
Project Name		Emergency Food Distribution Project for Vulnerable people in Kunar Province		
Phase 1	Start	2 nd Mar. 2023	End	30 th July. 2023

Log-Frame

Project Purpose	The distribution of food to vulnerable populations in dire need helps alleviate their immediate food needs in Kunar Province, Eastern Afghanistan, affected by global-scale food crises stemming from conflicts, economic crises, abnormal weather patterns, and other factors.		
Outcomes and indicators	Outcomes	Indicators	Means of Verification
	Distribute food to alleviate urgent food needs for vulnerable populations in the targeted areas of Kunar Province.	1. Among the 66 households monitored after distribution, more than 90% will respond that the distributed food significantly contributed to their immediate livelihood needs.	Interviews, phone surveys, household visits
Outputs	Output	Indicator:	Activities
	1. Provide three months' worth of food to 700 households residing in the targeted area.	1. 700 households receive urgently needed food. (List of distributed households, Monitoring)	1-1. Coordination with relevant authorities, clusters, and communities for project implementation. 1-2. Beneficiary selection. 1-3. Procurement of supplies. 1-4. Distribution of supplies. 1-5. Monitoring. 1-6. Reporting
Number of Beneficiaries	Beneficiaries: 700 households (4,900 individuals; calculated based on an average of 7 individuals per household)		

Project 3

Program Name		JPF Afghanistan Humanitarian Crisis Response Support Program			
Project Name		Emergency food assistance and hygiene and nutrition awareness for the most vulnerable IDPs and host communities in Yakawlang district, Bamiyan Province, Afghanistan			
Phase 1	Start	7 th Apr. 2023	End	31 st Oct. 2023	

Log-Frame

Project Purpose	Contribute to the prevention of malnutrition and the maintenance of a minimum standard of living for the most vulnerable 675 households (approximately 4,725 individuals) in Bamiyan Province, Afghanistan, through the provision of food distribution, distribution of hygiene items, and the implementation of hygiene and nutrition awareness campaigns.				
Outcomes and indicators	Outcomes	Indicators		Means of Verification	
	1. Vulnerable beneficiary households in Yakawlang District, Bamiyan Province, will enhance their access to food, leading to improved living conditions and the maintenance of a minimum standard of living. 2. Targeted beneficiaries in Yakawlang District, Bamiyan Province, will acquire knowledge on hygiene and nutrition, contributing to the prevention of malnutrition."	1-1. Among all 675 households that received food, in a sample of 30 households, at least 80% will show an improvement in the Food Consumption Score (FCS). 1-2. Among all 675 households that received food, in a sample of 30 households, at least 80% will show an improvement in the Reduced Coping Strategy Index (rCSI). 2-1. Among all 675 individuals who participated in hygiene and nutrition awareness workshops, in a sample of 30 individuals, at least 80% will demonstrate improved knowledge of hygiene and nutrition. 2-2. Among all 675 individuals who received hygiene items, in a sample of 30 individuals, at least 80% will effectively use the hygiene items.		1-1. FCS 1-2. rCSI 2. Monitoring, interview, questionnaire	
Outputs	Output	Indicator:		Activities	
	1. The most vulnerable targeted beneficiary households, 675 households, will receive a 3-month supply of food according to the Food Security Cluster standards. 2. Among the beneficiaries of food distribution, one woman from each targeted beneficiary household and a total of 675 targeted beneficiaries will receive hygiene items in accordance with the WASH Cluster standards, and they will participate in hygiene and nutrition awareness workshops.	1-1. 675 households receive a three-month supply of food at 2,100 Kcal/day/person. (Beneficiary list of those who received the distribution) 2-1. 675 individuals receive 16 hygiene items in accordance with WASH Cluster standards. (Beneficiary list of those who received the distribution) 2-2. 675 individuals participate in hygiene and nutrition awareness workshops. (List of workshop participants)		1-1. Coordination with relevant stakeholders 1-2. Selection and confirmation of beneficiaries 1-3. Selection and contracting of food handling vendors 1-4. Food distribution 1-5. Monitoring and evaluation 2-1. Coordination with relevant stakeholders 2-2. Selection and confirmation of beneficiaries 2-3. Employment of hygiene and nutrition promoters 2-4. Conducting hygiene and nutrition awareness workshops 2-5. Selection and contracting of hygiene items vendors 2-6. Distribution of hygiene items 2-7. Monitoring and evaluation"	
Number of Beneficiaries	Direct beneficiaries: 675 households of IDPs and host communities (with an average of 7 individuals per household)
